This is a guideline of our popular canapes, but we can personalize a list of canapes to your taste, style and budget. If you want a specific product or produce, then we can incorporate it into the menu. We can make Gluten Free, vegetarian and Vegan menus also.

We also do antipasto platters/ grazing tables (hanging from trees is another cool idea for an outdoor feature) that can be placed around the room/outside trees for people to help themselves also. This is a great feature and having this it can keep people eating and mingling whenever they feel peckish.
